

Easy Early Numeracy Games

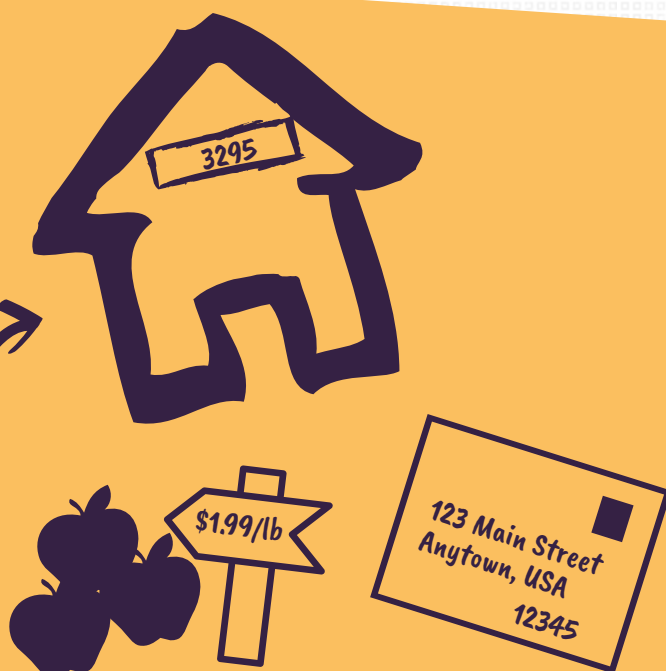

GET READY FOR SCHOOL BY GETTING READY FOR MATH!

Try these easy-to-play games to practice early math skills.

1. Show me the numbers!

LOOK FOR NUMBERS ALL AROUND YOU. HAVE YOUR CHILD POINT OUT ANY NUMBER THEY SEE, TELL THEM WHAT THE NUMBER IS. AS THEY LEARN NUMBER NAMES, ASK THEM TO POINT OUT THE NUMBERS AND NAME THEM.

2. Count the world!

LOOK AROUND AND COUNT EVERYTHING WITH YOUR CHILD... TREES, CARS, CHEERIOS, BOOKS, STEPS, ANYTHING AND EVERYTHING!

"1...2...3..."

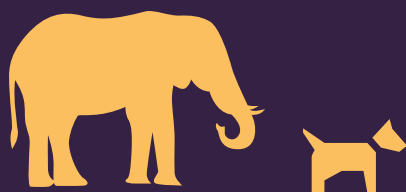

3. Name That Shape!

POINT OUT SHAPES ALL AROUND AND CHALLENGE YOUR CHILD TO SHOW YOU SHAPES, TOO. SEE WHO CAN FIND THE MOST!

4. Size it up!

POINT OUT THINGS THAT ARE BIG AND SMALL. HAVE YOUR CHILD DECIDE WHICH THINGS ARE BIGGER AND SMALLER. POINT OUT LESS AND MORE. HAVE YOUR CHILD DECIDE WHICH IS LESS AND WHICH IS MORE.

PLAY MATH GAMES ANYWHERE AND EVERYWHERE AND HAVE FUN!!!
